

CODE OF CONDUCT

One of the requirements of this policy is that employees, contractors, and agents of the Association for Mental Health and Wellness (hereafter referred to as the Association) adhere to a Code of Conduct. To this end, the leadership and management of the Association have developed a Code of Conduct for its employees, contractors, and agents.

The mission of the Association of Mental Health and Wellness is:

The purpose of this Code is not intended to replace any other policies or Standard Operating Procedures that are in effect, but rather to clearly define the Association’s position regarding issues related to integrity and ethics, and to provide information that will assist employees, contractors, and agents in utilizing good judgment when dealing with integrity and ethics issues that may arise in the course of their duties. It is expected that all will adhere to the Code of Conduct and to the policies, standards and procedures outlined in this program when they act on behalf of the Association.

The Association requires that all employees, contractors, and agents conform to the highest ethical standards, and takes pride in its long tradition since its founding in 1990, of ethical and responsible conduct in its programs and services.
