MENTAL HEALTH & WELLNESS**

CLINICAL INTERVENTION SERVICES

Clinical Intervention Services engages individuals and families that may be experiencing behavioral health challenges and/or housing instability, are HARP eligible and have active Medicaid benefits.

Clinical and rehabilitation interventions are available to help individuals achieve desired life goals, gain or maintain stable housing and assist them in resolving barriers to those goals.

A Licensed Clinical Social Worker provides ongoing therapeutic support and treatment services intended to engage individuals struggling with a mental health and/or substance use diagnosis who are unable to receive site-based care or who may benefit from community based services

Other available supports include:

- Referrals to Health Home Care Management
- Oversight of Single Point of Access applications
- Referrals to OMH, OASAS or PROS program, if desired
- Housing Readiness that provides identification and support to housing barriers
- Linkage to other HCBS services inclusive of Peer Support, Psychosocial Rehabilitation, Habilitation/Residential Support, Education Support, Pre-vocational, Intensive Support Employment and Ongoing Supportive Employment, that will assist individuals achieve desired life goals.
